How To Download The Update

There are two ways you can download the update. These are the same for FIFA 09 on all platforms.

1) Go to XBOX LIVE --> RANKED QUICK MATCH

A ticker will tell you that you must have the latest squad update in order to play online. You'll then accept and download the update and you will be able to use it for online games only.

This roster update won't be available when you play offline.

2) Go to ADIDAS LIVE SEASON --> DOWNLOAD LATEST UPDATE

You can't choose the Download Latest Update option if you haven't activated adidas Live Season. You must activate ALS first (this is free of charge). In order to do it, simply use the free code given for one league of your choice.

The code is printed on the back of the game manual. After activating ALS, you can download the latest update.

This update will be available for both Offline and Online modes.
